

Session 3: Know the Gospel, part 2

Bible study discussion

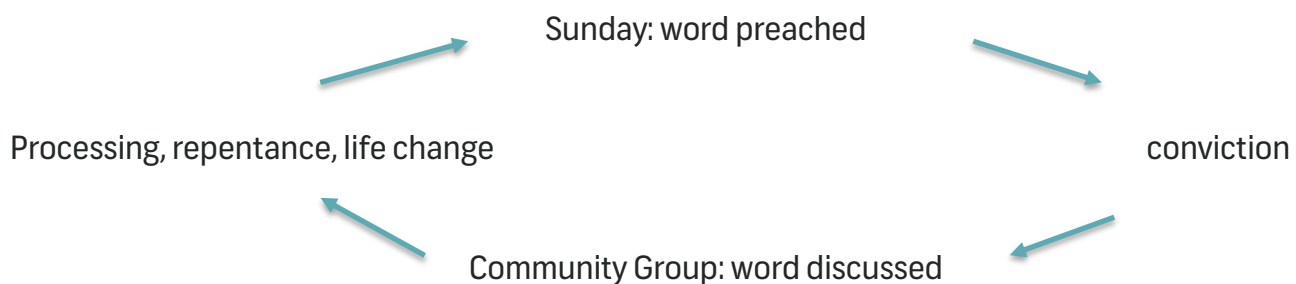

Leader expectations

1. Each week you would spend time preparing for discussion, both in study and in prayer. The goal isn't that you would know everything about the passage but that you feel confident facilitating discussion about it.
2. You would work from the weekly discussion guides as your starting point, both for study and for discussion questions. This means you are **not** expected to write a discussion each week.
3. As needed, you would edit, reword, and/or add to the questions in order to help the discussion fit your people best.
